# Fergus County

Located in central Montana, Fergus County is Montana's 14th most populous with 12,083 residents, according to the 1990 Census.

Lewistown, the county seat, is the state's 12th largest city with a population of 6,097. According to the *Montana Almanac*, by authors Andrea Merrill and Judy Jacobson, the county was established in 1885 and named for James Fergus, a pioneer, miner, cattleman and territorial legislator. There's been debate on where the city takes its name, but it's generally believed it's named after Camp Lewis, established in 1874 by Major William Lewis of the 7th U.S. Cavalry. It began as a trading post on the Carroll Trail in the 1880s and incorporated in 1899.

Lewistown is renowned for its water. Big Spring Water produces 99 million gallons a day at 99.9 percent purity. Agriculture and mining are also important to this city's economy.

According to the U.S. Bureau of the Census, median income for Fergus County households in 1989 was \$21,398. The county is 4,350.5 square miles in area; 4,339.3 square miles in land area and 11.2 in inland water area.

County residents experience the four distinct seasons. Average monthly temperatures range from a low of 8 degrees above in January to a high of 82 above in July. The annual average precipitation is 16.91 inches and the average growing season 107 days.
